Reminder

Please avoid sugary drinks, tea, coffee wine, and eating when wearing aligners or retainers to ensure the best results and maintain your oral hygiene.

Tips

Rinse the rejuvenated appliances in cold tap water and gently brush to remove any tablet residue from the surface. The residue is easily washed away with a gentle rub, leaving your appliances feeling fresh and clean.

Note: Do NOT brush under HOT tap water, which might cause damage to the appliance.

Additional Guidance

- Make sure that your appliances aren't touching each other or touching the container wall.
- HOT Surface! Be extra careful if you take out your appliances right after 10 minutes of rejuvenation process.
